Spring is a time for rebirth, growth and the embracing of new, exciting possibilities. All around us seeds of change are sprouting hope, the rains cleanse the weathered landscape and baby birds prepare for first flight. For just as nature springs forth every year at this time our rising seniors proudly step up to assume their place in the historic roles of English High School graduates.

For many of you this school has been your nest for the past four years- a safe place for you to nourish your intellect, challenge yourself and ponder the horizon. Now you stand perched at the edge of the unknown with strong capable wings stretched to catch the winds of change that promise to carry you to new heights. With your English High School diploma in hand, you can rest assured that you are ready and capable to take that faithful leap into the great blue yonder.

You are ready. You are prepared. The sky is the limit graduates, so prepare for take-off! And remember, don't lose sight of the horizon or forget where you earned your ticket to fly-The Home of the Blue & Blue.

Congratulations Class of 2013!

Mission...
Our "mission" is to have fun designing and building engineering projects! We started the club off by designing and building a bridge to compete in the Northeast Regional Engineering competition held each year at Northeastern University in January. This year our bridge had to be made from paper and styrofoam. It spanned a 38-inch gap, and weighed less than 1 pound and yet, was able to support more than 150 pounds. Both years we placed in the top 10 against some very stiff competition.

Shout Outs...
Our big shout out goes to our very own Guardian Angel; Henry Russell, Senior VP of Parsons-Brinkerhoff, who is an English High School alum. He always finds the time to come by and lend his support, good humor, and fantastic stories. Henry's presence and guidance drive us to never underestimate the value of a great engineering meeting!
